

August 31, 2018

To Whom It May Concern:

I have personally known Mr. Georgios Fiotakis, who completed his two-month obligatory graduate training imposed by the Department of Information & Communication Systems Engineering, School of Engineering, University of the Aegean.

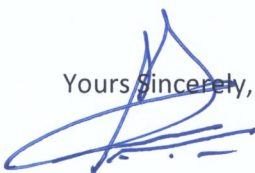

Giorgos worked at New Television - Star Channel for six months, from 02/06/2018 till 31/08/2018, in the Information Technology Department (IT), where he was a precious part of the Web Development team and was assigned with the development in PHP and MySQL on the back-end systems of company's WebTV site (Database & API Calls).

From his work and overall performance, one can easily identify that he is gifted with critical abilities and creative skills in his chosen field, while every day he has demonstrated a profound knowledge of his field of work and capacity to cope with whatever may be requested of him.

Giorgos have been highly cooperative, hardworking and self-motivated. He is a great team player, a good character and will have little difficulty in conquering whatever field he chooses to work in.

Therefore, I unambiguously recommend Mr. Fiotakis, as I am of the strong belief that he has the knowledge and the ability to meet the requirements of his chosen career and I am satisfied that he will play an important role within your industry.

Yours Sincerely,

John Gemelos  
IT Manager  
New Television "Star Channel" S.A.
